

Kapoor Khanal

Profile

I am Kapoor Khanal, an enthusiastic learner and a passionate worker. I presently represent myself as a student of B.Sc. (Hons) Computing in Islington College. The technological aspects of the IT field are mine primary aspects if passion and learning new skills, thus gaining valuable information/experiences are what motivates me. I prioritize punctuality, hard work and most importantly the skills required to be a part of working team to contribute my knowledge, ideas and manpower to be a part of something big. I may not have all the necessary answer and abilities, but I can promise you that even on the off chance that I don't have the foggiest idea about the answer to any assigned tasks for myself.

Experience

Portfolio

Language: HTML, CSS, Java Script

<https://drive.google.com/drive/folders/1KEvsk7MelgunCyJ8F4iEMCS3ZssbalFf?usp=sharing>
